

Leader in High Performance Data Analytics

THE IYKA ADVANTAGE

IYKA SOLVES THESE TYPES OF PROBLEMS

- **Limited Budgets**
Not having control over ongoing IT budget cuts / flat funding.
- **Scope Creep**
Not being able to track small changes add extra costs and delays into your IT project.
- **Poor Communication**
Not hearing from your IT vendor until there is a problem.
- **Technology Changes**
Not having a plan for changes in technology, e.g., new operating system, that may require a complete IT system overhaul.
- **Success Metrics**
Not having an effective way to measure IT system performance.

IYKA VALUE PROPOSITION TO IT PROGRAM MANAGERS

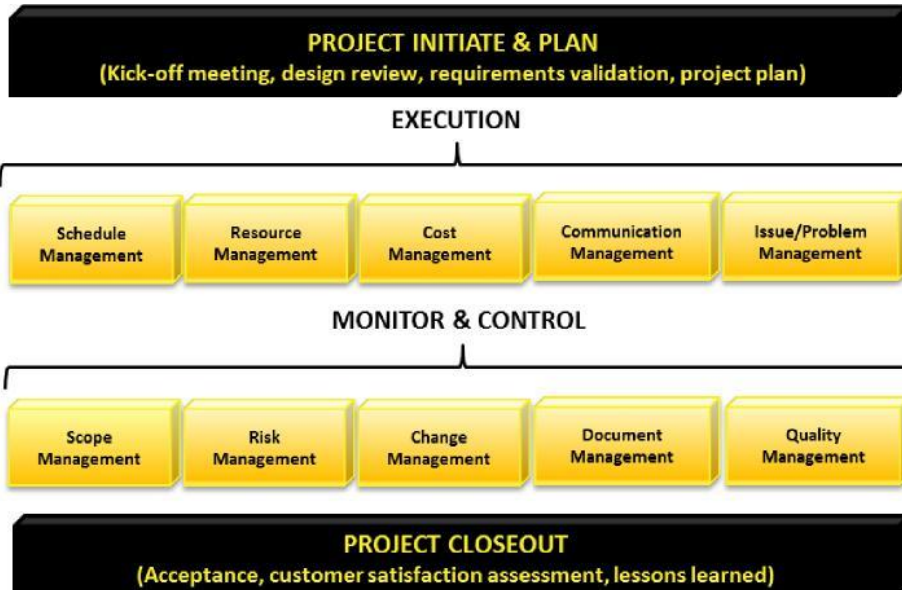

- **No Surprises**
Use a proven process to help avoid costly change orders.
- **Scope Analysis**
Use a detailed scope analysis to identify high-risk areas and help mitigate any potential problems
- **Communications**
Use a 3-point communications process to ensure a consistent flow of information.
- **Proactive Consulting**
Three Senior solutions architects with average of 25 years of experience are ready to provide regular consultation.
- **Performance Metrics**
Use a process to develop Key Performance Metrics (KPIs) to ensure simple and effective IT performance benchmarks.

PROJECT MANAGEMENT

The Iyka Project Management Office (“PMO”) provides proven, full-lifecycle Management services by leveraging years of project delivery experience across a wide range of technologies.

Our project managers can help you manage projects of varying size allowing you to concentrate on more strategic initiatives, or to supplement your knowledge-base for high profile projects.

Our project management services include tracking action items and deliverables, maintaining control of scope changes, managing and tracking issue resolution, and accurately predicting budget variances. While continually monitoring project performance and anticipate what lies ahead in order to proactively adjust instead of reactively change.

EXPERTISE

The overall lyka value proposition is to serve as a strategic supplier to the University of Illinois in the data management area. Lyka will provide long-term value that helps reduce data costs up to 20%.
